PROFESSIONAL PROFILE

Versatile Software Engineering student at Vilnius University with practical experience in web development, customer support, social media management, video editing, graphic design, and digital marketing. Experienced in building Spring Boot and MySQL applications, resolving customer concerns across multiple channels, and producing multi-platform content for international university promotions. Combines technical problem-solving, customer-focused communication, visual creativity, and audience-focused strategy.

CORE EXPERTISE

Java, Spring Boot & REST APIs	MySQL & Web Applications	Social Media Management
Video Editing & Motion Content	Graphic Design & Branding	Customer Support & Communication

PROFESSIONAL EXPERIENCE

Social Media Manager | MAS Private Limited

2024 – Present

- **Campaign development:** Planned and delivered digital marketing campaigns for international university promotions across multiple social platforms.
- **Visual content production:** Designed promotional posters, campaign graphics, and edited video content for varied marketing requirements.
- **Multi-platform management:** Managed social media accounts while maintaining consistent brand messaging and visual identity.
- **Content planning:** Prepared content calendars and coordinated publishing to support ongoing campaign priorities.
- **Performance review:** Monitored platform analytics and used insights to refine content and campaign decisions.
- **Collaboration:** Worked with marketing teams to translate promotional objectives into clear, audience-focused creative assets.

Customer Support Specialist | MAS Private Limited

2023 – 2024

- **Customer assistance:** Responded to customer inquiries and provided clear, accurate information about services and next steps.
- **Issue resolution:** Investigated concerns and resolved service-related issues efficiently while maintaining a positive customer experience.
- **Multichannel communication:** Supported customers through phone, email, live chat, and social media with a professional and helpful tone.
- **Documentation & follow-up:** Recorded customer interactions, escalated complex cases, and followed up to confirm successful resolution.

Web Developer | Šiaulių Didždvario gimnazija

2026

- **Application development:** Developed a web-based study planning system for students using Spring Boot and MySQL.
- **API design:** Designed and implemented RESTful APIs for subject and study plan management.
- **Security features:** Built user authentication and authorization functionality.
- **Database integration:** Connected application workflows to MySQL and implemented core data operations.
- **Testing & architecture:** Tested endpoints with Postman and structured the application using MVC principles.
- **Version control:** Used Git throughout development to manage changes and maintain project history.

SELECTED PROJECTS

ClipdNow • Short-form content brand

Built and manage a multi-platform content brand across YouTube, TikTok, and Instagram, including clip creation, thumbnails, branding, publishing, and analytics-informed content decisions.

Student Planning System • Spring Boot application

Developed a study planning application with authentication, REST APIs, MySQL database integration, endpoint testing, and MVC-based structure.

University Marketing Campaigns • Design & digital marketing

Created promotional posters and social media assets for Vilnius University, Vytautas Magnus University, and Vilnius Tech while adapting layouts to campaign and brand requirements.

Personal Portfolio • Responsive website

Designed and developed a responsive portfolio website that presents software projects, creative work, and contact information in one accessible destination.
