Professional Profile

Software Engineering student at Vilnius University with practical experience in social media management, video editing, graphic design, and software development. Experienced in creating digital marketing campaigns, building web applications, and growing short-form content across YouTube, TikTok, and Instagram. Passionate about combining creativity with technology to produce engaging digital experiences and measurable results.

Education

Bachelor of Software Engineering
Vilnius University Šiauliai Academy
2023 – 2027

Professional Experience

Social Media Manager | MAS Private Limited (2023 – 2025)

- Managed social media accounts across multiple platforms.
- Designed promotional posters and digital marketing campaigns for international universities.
- Produced and edited promotional videos and graphics.
- Planned content calendars and maintained brand consistency.
- Monitored analytics and optimized campaign performance.
- Collaborated with marketing teams to increase engagement.

Web Developer | Šiaulių Didždvario gimnazija (2026 – 2026)

- Developed a web-based study planning system for students using Spring Boot and MySQL.
- Designed and implemented RESTful APIs for subject and study plan management.
- Built user authentication and authorization features.
- Integrated database operations using MySQL.
- Tested endpoints using Postman and followed MVC architecture.
- Applied Git-based version control during development.

Featured Projects

ClipdNow: Built and manage a short-form content brand across YouTube, TikTok, and Instagram. Created viral clips, branding, thumbnails, and analytics-driven content.

Student Planning System: Developed a Spring Boot application with authentication, REST APIs, and MySQL database.

University Marketing Campaigns: Designed promotional posters and social media assets for Vilnius University, Vytautas Magnus University, and Vilnius Tech.

Personal Portfolio: Designed and developed a responsive portfolio website showcasing software and creative work.
